STUDIO HBA

*Ar. Rahul Shankwalker
Partner, Studio HBA, New Delhi*

Studio HBA is a young, growing, dynamic brand within Hirsch Bedner Associates. With an expansive portfolio encompassing: Hospitality, Residential, Food and Beverage, Wellness and Workplace; Studio offers the same levels of innovation, creativity and professionalism associated with HBA across a broad spectrum of design disciplines and with a keenly focused local context.

We are currently engaged in over 200 projects stretching from the West Coast of America to the prosperous and expanding cities of The Middle East, India, China, Indonesia and Myanmar amongst many others.

The bidet is becoming an increasingly popular necessity in the bathroom

AKDA

AKDA integrates the disciplines of architecture, interior design, furniture, lighting and product design under a singular ethos. Established by Amit Khanna in 2004, the studio's philosophy is to make regional specificity and sustainability intrinsic to the design process and product. Every object they produce undergoes the same scrutiny of process and exactitude - a process that is founded in suitable materiality and innovation, irrespective of appearance.
