## ANOTHER JEWEL IN THEIR CROWN

Jewellery brand Ganjam's flagship store in Bangalore, launched in October 2015 for the completion of 125 years of the brand, has been in the news lately. It has been rewarded for its interior store design by a jury of international architects and cultural experts at the Prix Versailles 2016, held at the UNESCO headquarters, for Commercial Architecture. The store is designed by the Denis Montel, Managing and Artistic Director at the eminent French firm, RDAI. **AT** [www.ganjam.com](http://www.ganjam.com)

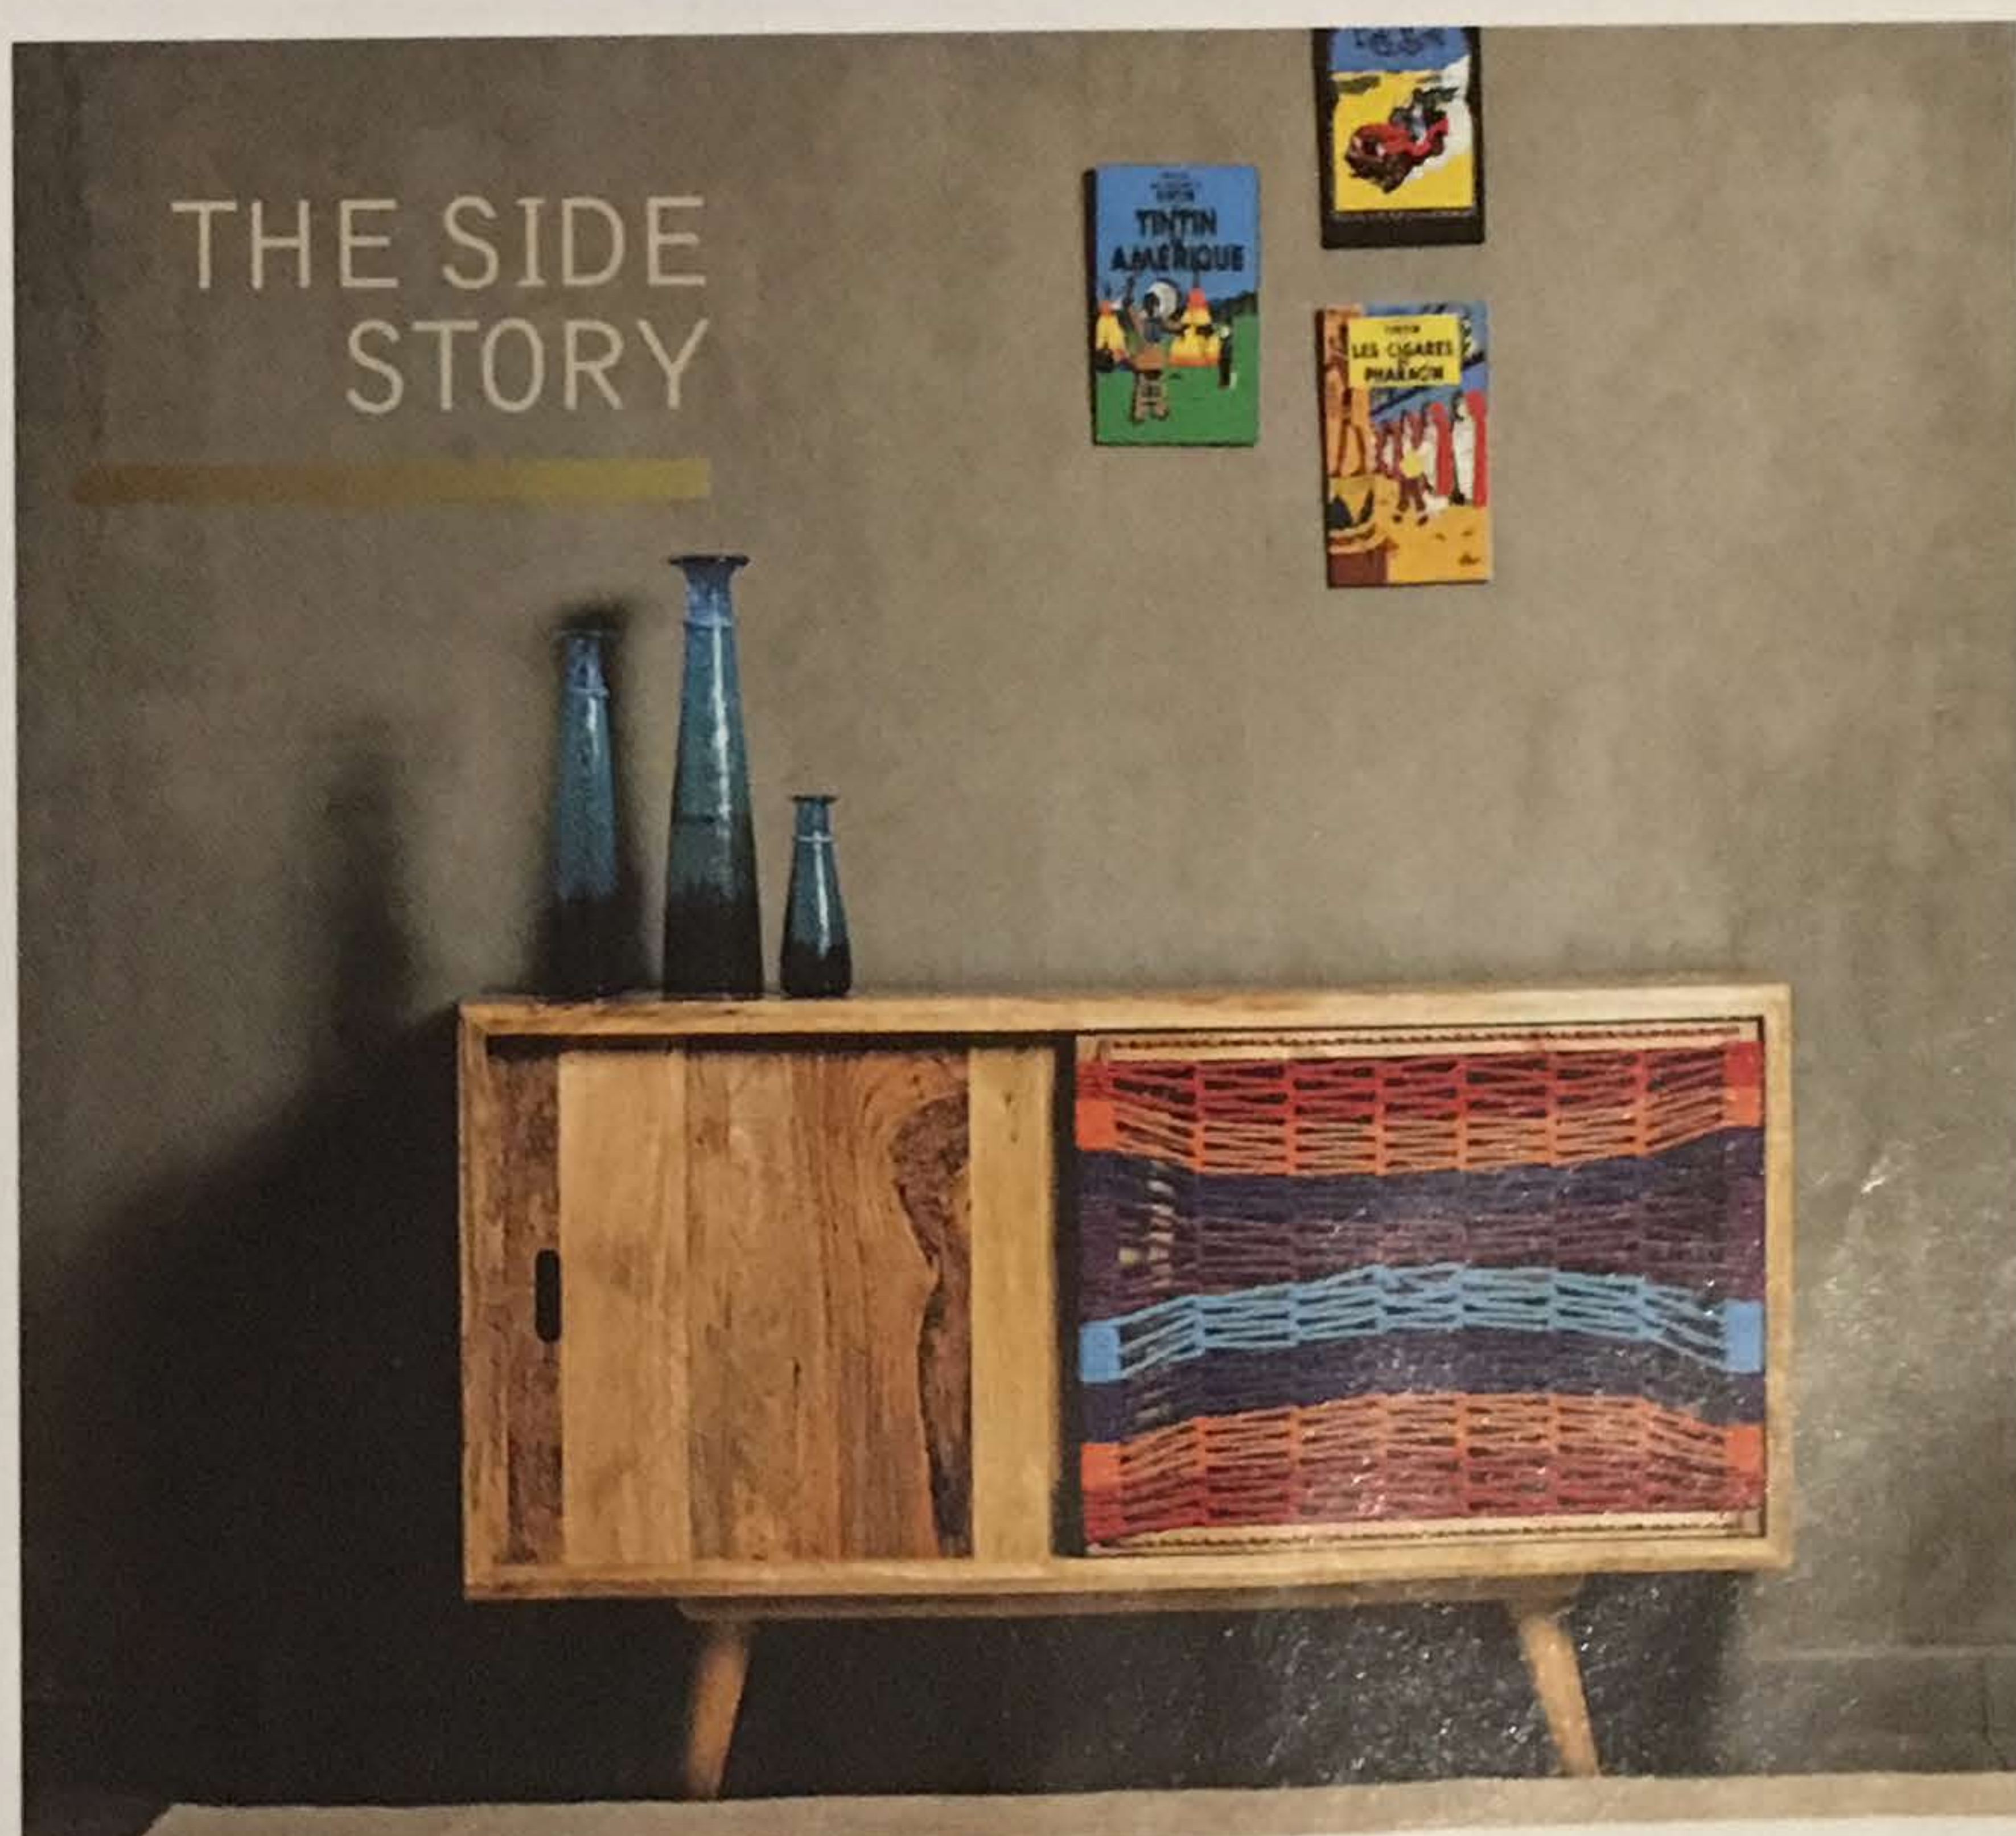

## URBAN DWELLING

Can a home cost less than ₹1,000 per square foot? AKDA (Amit Khanna Design Associates) has proved this with a project titled House X in Noida. The 3,200 sq ft home even has sustainable features like double glazed windows, courtyards, efficient lighting, skylights, use of local materials and rain water harvesting, to just name a few. **AT** [www.akda.in](http://www.akda.in)

## THE SIDE STORY

The last month has seen a resurgence of the often overlooked sideboard. Think of it as an accent piece that works well even as a room divider (especially in the no man's land between the dining and drawing rooms). Featured here is our sideboard pick of the month, a consciously engineered solid wood piece from InLiving's new collection. The best part? It has sliding panels that helps you store almost anything. **PRICE** ₹30,000 to ₹50,000; **AT** [www.inliving.com](http://www.inliving.com)
